Are there other beings on this earth and in space beside human beings? If so, who are they and what do they do? Unfortunately, a Christian can go to church and attend Bible class his entire life and never hear a sermon or study a lesson that deals with the subject of angels — both good and bad.

The Bible is not silent on the subject of angels. It speaks clearly on the topic in both the Old and New Testaments. There is another kind of being beside man, namely, angels. We may or may not feel their presence. We may or may not have seen one or heard one, but they exist, and they exert their powerful influence both in heaven and on earth.

This Bible study is presented to dispel any false perceptions you may have about angels. It clearly lays out what God says about angels for the benefit of your life here on earth. It displays the purpose of angels relating to God's plan for time and for eternity which in turn brings glory to Him. Please join us for this study.
